

November 29th, 2022

The Management of COLOMBO SPECIAL FASTENERS S.R.L., aware of the challenges and opportunities imposed by the market and of the needs to make choices aimed at sustainable development, considers of fundamental importance to define and maintain an Environmental Management System, in accordance with the UNI EN ISO 14001:2015 standard, with the aim of ensuring continuous processes improvement and environmental performance, as well as the satisfaction of all involved parties and the regulatory provisions on the subject, enforceable to its activities.

Therefore, declares that it undertakes to manage its production activity by ensuring:

- Compliance with environmental legal instructions and with all requirements to which the organization subscribes concerning its environmental aspects;
- Adoption of all necessary measures to limit the occurrence of emergency conditions and any resulting environmental impacts;
- Monitoring of resources and energy consumption;
- Proper waste cycle management;
- Continuous staff awareness of environmental and energy saving issues to increase the performance and ensure continuous improvement of the Environmental Management System;

To ensure compliance with these principles, the company will:

- Adopt a preventive approach to the management of environmental issues;
- Periodically review the effectiveness of the Environmental Management System, by verifying the achievement of objectives and targets set for the purpose.
- Communicate this policy and the System's operating procedures to all personnel working for or on behalf of the company, so that they comply with it when carrying out their tasks.

In addition, the company is committed to continuous research and development related to renewable energy sources, to exploit their advantages and the low impact on the environment.

This environmental policy, and related goals, are reviewed annually by the Management of COLOMBO SPECIAL FASTENERS S.R.L, during the Management Review.

The Management
Marco Colombo
